PROJECT EXPERIENCE

AuraCare Lite | Independent Product & Workflow Project

- Coordinated end-to-end planning and development for a publicly deployed healthcare-focused web application, managing feature priorities, documentation, and release planning from concept through launch.
- Organized product requirements, system documentation, and development planning for 12+ planned application features using Notion, and AI-assisted productivity tools to improve project visibility and execution.
- Managed deployment and iterative product updates through GitHub and Vercel, maintaining structured documentation and project tracking throughout the development lifecycle.

Grow with Google Project Collaboration

- Served as team lead and primary presenter for a collaborative Google Project Management project, coordinating communication, organizing presentation content, and guiding workflow alignment across team activities.
- Designed and delivered visual presentation materials using Google Slides and Notion, simplifying project initiation concepts into clear, audience-friendly information.

Community Carnival Fundraiser Project

- Managed scheduling, stakeholder outreach, donation coordination, and event logistics for a community fundraising carnival benefiting MUST Ministries.
- Assisted with project planning documentation including work breakdown structures (WBS), Gantt chart coordination, and communication planning activities.

Selected Achievements

- Reduced recurring operational delays by 24% through workflow redesign and scheduling improvements.
- Directed 5 simultaneous operational projects, aligning timelines, stakeholders, and deliverables across daily business operations.
- Managed centralized grant documentation and funding trackers supporting nonprofit programs that provide free technology education to underserved youth.
- Led project presentations and team collaboration for Google's Project Management Certificate, translating complex concepts into executive-ready presentations.
- Planned, organized, and launched **AuraCare**, a publicly deployed workflow application demonstrating end-to-end project coordination from concept through deployment.

WORK EXPERIENCE

Tech Teens Inc

Lithia Springs, GA

Grant Research & Partnerships Volunteer

May 2026- Current

Nonprofit organization preparing teens for careers in technology through free workforce development programs, STEM education, career exploration, and community partnerships.

- Managed the organization's centralized grant tracker and SharePoint documentation system, establishing milestone reminders through Microsoft Teams and Outlook that ensured 100% on-time tracking of active grant deadlines.
- Consolidated attendance, program outcomes, and community impact data into standardized reporting packages, improving the quality and consistency of materials used for grant applications and stakeholder reporting.
- Coordinated the collection, organization, and formatting of budgets, program narratives, and supporting documentation, streamlining grant preparation and improving alignment with funder requirements.
- Researched grant opportunities, corporate giving programs, and community partnerships to expand funding prospects supporting free technology education programs across Metro Atlanta.

Cracker Barrel

Lithia Springs, GA

Operations Assistant Manager

Sept 2022- Feb 2025

Fortune 1000 restaurant and retail company operating 650+ locations nationwide, serving millions of guests annually through large-scale hospitality and retail operations.

- Diagnosed process gaps across HR and operations initiatives and implemented scheduling improvements that reduced recurring delays by 24%.
- Redesigned onboarding procedures and documentation, reducing new-hire ramp-up time while improving consistency and early operational productivity.
- Facilitated recurring team meetings to monitor project progress, resolve operational roadblocks, and keep stakeholders aligned on priorities and deliverables.
- Mentored team members on reporting standards, workflow documentation, and communication practices, improving operational consistency and reducing process variation across shifts.

Assurant*Kennesaw, GA***Claims Associate***Apr 2021-Apr 2022*

Global Fortune 500 provider of risk management, insurance, and technology solutions serving clients across the housing, automotive, and connected device industries.

- Introduced a structured project tracking dashboard to monitor HR initiatives, reducing missed deadlines and improving reporting visibility for leadership.
- Developed executive-level reporting materials that standardized project updates, reduced operational rework, and improved leadership visibility into initiative progress.
- Supported HR technology implementation projects by coordinating milestones, maintaining documentation, and tracking deliverables to ensure projects remained organized and on schedule.
- Delivered onboarding and systems training for new hires, improving adoption and confidence in HRIS platforms and operational procedures.

1000 Degrees*Kennesaw, GA***Operations Manager/ Project Coordinator***Mar 2019- Mar 2021*

Multi-location quick-service restaurant franchise emphasizing standardized operations, workforce development, and high-volume customer service.

- Identified inefficiencies in labor scheduling and implemented a revised rotation system that improved shift coverage and operational efficiency.
- Overhauled onboarding documentation and training workflows, reducing early-stage operational errors and improving employee readiness.
- Managed payroll processing and operational compliance across recurring pay cycles, maintaining accurate records and ensuring timely employee compensation.
- Coached and developed team members through structured feedback and training, improving service consistency, communication, and day-to-day operational execution.

Planet Fitness*Mableton, GA***Team Lead***Aug 2017- Aug 2019*

One of the world's largest fitness franchise organizations with more than 2,600 locations, serving millions of members through high-volume retail and service operations.

- Led shift coordination meetings and training sessions to improve team communication, workflow organization, and operational performance.
- Maintained compliance with company safety and operational standards, supporting consistent service delivery and successful performance evaluations.
- Supported implementation of new scheduling and member tracking systems through staff training and operational monitoring.
